Proposal for Google My Business Optimization Services

Google My Business (Now Google Business) is a free tool for businesses to gain visibility in their locality. I am sure you know that people searching online for services are usually in a hurry, and are looking to make their decisions rather quickly. That could involve calling you, visiting your website, or getting directions via Google Maps. These are some interesting statistics from our experience:

- ❖ Over 10,000 business views in the last 5 months and 700+ business interactions
- ❖ More than 1,000 Views on Search
- ❖ 291 requests for direction to the office
- ❖ 266 website visits directly from GMB
- ❖ 150 calls received from the GMB profile and more. See screenshots below.

Unfortunately you can't fully harness the potentials of a GMB page without proper optimization and management
